OBJECTIVE

Highly skilled Passionate and curious full-stack Django developer with a knack for building impactful, user-centric web applications. Skilled in bridging backend logic with responsive front-end experiences using Django and React.js. Expertise in MySQL optimization, and transforming data with other libraries. Committed to writing clean, secure, and scalable code while following best practices in testing and deployment. Eager to contribute my skills to innovative projects in a dynamic, forward-thinking team.

SKILLS

TECHNICAL SKILLS

- **Programming Languages:** HTML/CSS, JavaScript (ES6), Python (3.10) (Pandas)
- **Frameworks and Libraries:** React.js, Axios, Django, Pandas, Matplotlib, Urllib3, BeautifulSoup4
- **Other Technical Proficiency:** Jinja 2.0, Microsoft Excel, Linux, Git (Version Control)
- **Database:** MYSQL, MongoDB

SOFT SKILLS

- **Problem-Solving:** Analytical Thinking, Critical Thinking, Team Leading
- **Soft Skills:** Team Leadership, Communication, Attention to Detail

EDUCATION

- **Bachelor of Computer Applications (BCA)** | Shyamlal College, Delhi (IGNOU) | 2022 – 2025
- **Bachelor of Commerce (B.COM)** | Dyal Singh Evening College (SOL), Delhi University | 2019 – 2022
- **Higher Secondary (12th)** | CBSE Board, Delhi | 2016 – 2018
- **Secondary School (10th)** | CBSE Board, Delhi | 2015 – 2016

PROJECT

E-COMMERCE PLATFORM

Tech stack: DJANGO, POSTGRESQL, HTML/CSS, JAVASCRIPT, BOOTSTRAP.

OVERVIEW:

Developed a full-stack **E-Commerce platform** with **secure authentication, product management, shopping cart, and stripe-based payments**. Features include order management, **an admin dashboard**, and optimized **PostgreSQL** database performance for seamless user experience.

Key Features:

- ✓ **User Authentication & Authorization** – Implemented secure login and signup authentication.
- ✓ **Product Management** – CRUD operations for products, categories, and inventory tracking.
- ✓ **Shopping Cart & Checkout** – Add-to-cart functionality with real-time order processing.
- ✓ **Admin Dashboard** – Role-based access for managing products, users, and transactions.
- ✓ **Database Optimization** – PostgreSQL database with indexing and optimized queries for performance.

WEATHER APP (REACT, OPENWEATHER API)

TECH STACK: REACT.JS, JAVASCRIPT, BOOTSTRAP CSS, OPENWEATHER API, AXIOS.

Overview:

Developed a real-time weather app that fetches and displays weather data for any city using the OpenWeather API. Features include current conditions, temperature, humidity, wind speed, and a responsive UI.

Key features:

- ✓ **real-time weather updates** – fetches and displays live weather data.
- ✓ **search functionality** – allows users to find weather details for any city.
- ✓ **responsive ui** – built with bootstrap for a clean, mobile-friendly design.
- ✓ **error handling** – alerts users for invalid city names and ensures smooth ux.
- ✓ **Link:** [WEATHER FINDER APP](#)

CERTIFICATIONS

Full Stack Web Development Certification

American India Foundation with EXL Prashast Program | 2024

Completed a comprehensive certification in Full Stack Web Development, with practical experience in designing, building, and deploying fully functional web applications. Demonstrated proficiency in developing seamless user interfaces, integrating backend systems, and ensuring robust application performance.
