https://github.com/bishalhere01 **|** www.linkedin.com/in/bishal-bhandari-549781322

OBJECTIVE

Passionate **Frontend Developer** with expertise in **React, JavaScript (ES6+), SQL, Bootstrap**. Skilled in building **efficient, scalable applications** with **React and MySQL**. Strong problem-solving mindset with a keen eye for performance optimization. A team player who enjoys writing clean, maintainable code and tackling complex challenges. Looking for an opportunity to grow and contribute in a dynamic environment.

SKILLS

- **Programming Languages:** HTML/CSS, JavaScript (ES6+), Bootstrap, react, SQL
- **Database:** MySQL, Query Optimization
- **Version Control:** GitHub
- **Problem-Solving:** Debugging & Troubleshooting, Critical Thinking
- **Soft Skills:** Time Management, Work Ethic & Accountability, Team Collaboration

EDUCATION

- **Indira Gandhi National Open University**
  Bachelor of Computer Application (Computer Science) | 2021 – 2024
- **Central Board of secondary Education**
  Govt. Boys SR sec School 12th | 2020 – 2021

PROJECT

WEATHER APP (REACT-BASED)

Tech Stack: React.js, Axios, Bootstrap OpenWeather API, JavaScript (ES6+), CSS

OVERVIEW:

The Weather App is a React-based application that provides real-time weather updates using the OpenWeather API. It allows users to search for weather conditions by city, displaying temperature, humidity, wind speed, and more. This project is great for learning React fundamentals, API integration, and state management.

Key Features:

Search Weather by City – Users can enter a city name to get live weather updates.
Real-Time Weather Data – Fetches data from the OpenWeather API using Axios.
Temperature & Conditions – Displays temperature, humidity, wind speed, and weather conditions.
Dynamic UI – Changes background or icons based on weather conditions.
Error Handling – Displays error messages for invalid city names or API failures.
Responsive Design – Works across devices with a user-friendly UI.

CERTIFICATIONS

Full Stack Web Development Certification

American India Foundation with EXL Prashast Program | 2024

Successfully completed a **Full Stack Web Development** certification, gaining hands-on experience in **designing, developing, and deploying** fully functional web applications. Proficient in building **responsive user interfaces**, integrating **scalable backend systems**, and optimizing **application performance** to ensure efficiency and reliability.
